

Blythewood Middle School Band Program SMARTMUSIC SOFTWARE

SMARTMusic is a fantastic piece of software that is available to all band students to make practice time more effective and more fun. It is available for the low cost of \$30.00 (\$49.95 with the purchase of a microphone).

1. This will buy a year-long subscription to this powerful practice tool.
2. It will provide accompaniments to all lines in our method books.
3. It provides you with a built in metronome and tuner.
4. It provides you with **THOUSANDS** of musical exercises.
5. It provides accompaniments to Solo and Ensemble literature.
6. It provides the students with immediate feedback on their performances.
7. It allows students to record themselves playing their instruments.
8. It teaches them how to read music more effectively.

If you would like to order this fantastic software, log on to www.smartmusic.com and order it directly from the company. Go to the "Students & Parents" tab and click "Order Now". Follow the directions and you can order directly from SMARTMusic. I would not recommend downloading the file unless you have high speed access. I would have them send you the disc. At the end of the year subscription, you will receive notification that it is about to expire so that you can renew it.
